Professional Engineer – Wood Structures

The Wood Enterprise Coalition, representing Wood *WORKS!* BC, FPInnovations and BC Wood, is seeking a Technical Advisor to advance the use of wood products in publicly funded building projects in British Columbia.

The Technical Advisor will provide technical support and referral services to assist architects, engineers, building officials, elected officials and city planners in designing with wood. He or she will educate and inform decision makers about technical issues and solutions related to the use of wood in commercial construction.

Key qualifications include:

- Registered Structural Engineer
- Extensive practical experience in designing and/or building with wood
- Excellent communication, networking, and presentation skills;
- Highly motivated, ability to work independently
- Good knowledge of the BC Design & Construction Community

Salary will be commensurate with experience. The position is located in **Vancouver** and will demand some travelling. Please forward your resume in confidence **by August 15, 2010**

Only successful candidates will be contacted after the closing date.

For more information and/or to forward your resume:
