Professional Engineer or Architect – Wood Structures

Wood *WORKS!*, a program of the Canadian Wood Council, is seeking a Technical Advisor to advance the use of wood products in commercial, industrial and institutional buildings in Ontario.

The Technical Advisor will provide technical support and referral services to assist architects, engineers, building officials and contractors in designing with wood. He or she will educate and inform decision makers about technical issues and solutions related to the use of wood in commercial construction.

Key qualifications include:

- Registered Architecture and/or Civil Engineer;
- Highly motivated and skilled individual
- Extensive practical experience in designing and/or building with wood;
- Excellent communication, networking, and presentation skills;
- Good knowledge of the Ontario Design & Construction Community

Salary will be commensurate with experience. The position is located in **Ottawa** and will demand some travelling. Please forward your resume in confidence **by Friday, July 30th, 2010**. For more information and/or to forward your resume:

Note:

Only successful candidates will be contacted after the closing date.
