Technical Advisor – Wood Structures

Wood *WORKS!*, a program of the Alberta Forest Products Association and the Canadian Wood Council, is seeking a Technical Advisor to advance the use of wood products in commercial, industrial and institutional buildings in Alberta.

The Technical Advisor will provide technical support and referral services to assist architects, engineers and builders in designing with wood. He or she will educate and inform decision makers about technical issues and solutions related to the use of wood in commercial construction.

Key qualifications include:

- Post secondary training in Architecture and/or Civil Engineering;
- Extensive practical experience in designing and/or building with wood;
- Excellent communication, networking, and presentation skills;
- Good knowledge of the Alberta Design & Construction Community and the Wood Products Industry

Salary will be commensurate with experience. The position is located in Edmonton and will demand some travelling. Please forward your resume in confidence **by Friday, February 12, 2010**. For more information and/or to forward your resume:

Note:

Only successful candidates will be contacted after the closing date.
